

EYLF Outcome 4 - Meanings and Examples

Children have lots of time to play with the same toys and activities over and over again

Children need enough time to play with the same things over and over again like a puzzle.

Children use ideas from home or somewhere new they have been in their play

Let children bring their ideas from home or the community to child care or preschool where they can practice them in their play.

Children begin to make connections with their community

Talk to children about all the people in community that can help them learn.

Children make connections with places

Talk to the children about where they live, where they play, where they go fishing.

Children use technology to explore ideas

Teach the children how to use the camera to take photos of their block building or sandpit play or play dough activities.
