

Let's Reflect

5.6.2023

How Do You We Promote Sustainability Within The Service?

Share your thoughts/ideas:

- Encourage children to empty scraps into compost bin then into the outdoor compost - Kelly
- We have created a recycling centre in each room. Children are encouraged to sorting recyclables and continue to sort the items they use every day - Ryan
- There is a shelf where recycled materials can be stored. Children can choose what they want to use and create with. - Cassidy

Families can also be encouraged to bring in recycled materials that can be used for art projects. - Seth
