

Dear Sam

Date: 11-Jul-25

This week, we noticed something truly special during your play...

While outside you carefully placed stones in a row and softly whispered to them, "You're going to sleep now." When a friend asked what you were doing, you said, "I'm making a bed for Country to rest."

You showed us how curious and capable you are when you...

Explored textures, space, and storytelling all on your own. You demonstrated a strong sense of identity and connection (Outcome 1.3) as you expressed your understanding of care and belonging with gentleness and creativity.

We are so proud of the way you...

Used your voice and imagination to teach us something beautiful about respect and stillness. We plan to explore First Nations perspectives of rest and renewal, inspired by your play.

Keep shining, little one. We love learning with you!

Ms Lorina
