

I SEE YOU

I see the way you...

Show up—on the hard days, the heavy days, the days no one else sees.

I see your...

Quiet strength when the room is loud, your calm when the chaos swirls. I see your care in the way you notice the child who's withdrawn, the colleague who's tired, the moment that matters.

You may not know this, but ...

Your presence makes a difference. You hold space. You restore safety. You remind us what compassion looks like.

With gratitude,
Lorina .N.
