

Child's Words:

"I was trying to make the rocket fly to the moon!"

What I Felt:

"I felt excited because it almost worked!"

What I Discovered:

"If I push too hard, it falls over. I need balance."

What I Want to Try Next:

"I want to build wings so it can glide!"

Educator's Reflection:

Adam demonstrated persistence and spatial reasoning. His language reveals imaginative hypothesis-building and emotional engagement.
