

Celebrating Valentine's Day

For Valentines Day we made Valentines Day cookies to give to our parents. We used shaped cutters to make hears and decorated these using different coloured icing. We also had heart candy which could be used for decorating as well. Once we made these and the icing was dry, we gift wrapped them in clear cellophane with red ribbon and hearts. We also made our parents a Valentines Day card. We used paints, glitters, textas and crayons to colour and create our cards. We added these to our cookies to present to our parents. We presented these Valentines Day gifts to our family for Valentines Day and our gifts were loved by all!

Five little's hearts all in a row
The first one said,
I love you so
The second one said,
Will you be my valentine?
The third one said
I will, if you'll be mine
The fourth one said
I'll always be your friend
The fifth one said,
Till the very end...
