Observation

Maya enjoyed playing with the magnets. "I want to do fishing" Maya said with a smile. We attached the magnet to the stick as the fishing rod and Maya caught the fish in her rainbow water basket. "I have so many fish - 1,2,3,4,5 - five fish I have" Maya said When she finished catching all the fish magnets, she put them inside the basket and using the beads in the basket began to colour sort. She sorted the beads in the different coloured containers.

Analysis

Through this experience it is evident that Maya is a confident and involved learner. She develops dispositions for learning such as curiosity, co-operation, confidence, creativity, commitment, enthusiasm, persistence, imagination and reflexivity. This is observed as Maya used the magnets as a fishing rod to catch fish.

Outcomes Achieved

4.1 - Children develop dispositions for learning such as curiosity, cooperation, confidence, creativity, commitment, enthusiasm, persistence, imagination and reflexivity.

5.1 Children interact verbally and non-verbally with others for a range of purposes.
