Date: 08-Aug-16

Mini Olympics

On Monday the children participated in soccer. Christopher was extremely excited "I watch soccer with my dad at home". We split the group of children into 2 teams and the children were encouraged to kick the ball towards the goals. Christopher enjoyed running up and down the field "look at me I'm too fast" he said. Christopher got the ball and kicked it with his right foot towards the net and scored. He jumped up and down with his hands in the air "I got it, I got it". The children all clapped and we continued playing.

After a few goals were scored throughout the game, we sat the children on the field and we talked about the Olympics. "I watch it, they get medals for winning". Christopher commented. We also spoke about how athletes work and train very hard to make it to the Olympics and how they are proud to represent their country.

On saying this, Megan brought out a special box. "What's inside" Christopher asked. As I opened it, "It's a medal for me" Christopher commented. "Yes, a medal for everyone, just like in the Olympics" I said. We called each child one by one and gave them a medal for participating in our mini Olympics. "Can't wait to show dad" Christopher said excitedly!
