Conjunctivitis		✓	
Other		✓	

Parent Contacted	✓		Parents were contacted at 10am.
Child Collected			Yes, Robert was collected at 10:45am.

**Additional Info:** Once we noticed a fever was present in Robert, we isolated him away from the other children. We contacted his Parents however, his parents said they needed some time to organise work arrangements. While waiting, Robert was given warm water for his sore throat and an Educator was with him while waiting for Parents.
