Under The Sea Aquarium

Today the children went to Under The Sea Aquarium. We boarded the bus at 9am in the morning and within an hour the children were excitedly lining up ready to go inside. We went by the touch-pool first "A starfish" Maria said excitedly. John put his hand inside the touch pool "Water's cold, i can feel something". We stayed together as we explored different parts of the aquarium "jellyfish glow" David said "Rock fish are camouflages" Maya explained. The children wondered in amazement as they saw the different sea creatures throughout the aquarium.

Learning and Development

Through the experiences the children gained on the excursion it shows they explore relationships with other living things and observe, notice change.

Linking To The Outcomes

L/O 2: Children become socially responsible and show respect for the environment.
