

My Learning and Development

Feb 2021 - June 2021

Hannah naturally explores textures, tastes, sounds and smells through hands-on learning, which helps to build cognitive skills. Hannah enjoys pretend play. In dramatic play, Hannah acts out different roles. The roles can be real-life scenarios, like going shopping or eating at a restaurant. Hannah promotes self-confidence, self-esteem, and also critical thinking skills. Hannah enjoys creative play in any activity that includes expressing her creativity and imagination. She engages in open ended play and activities. It's been a pleasure watching Hannah grow over the first half of the year and excited to see how she develops in the future. - Miss Julia Preschool Educator

What's Next For Me

- Add a sensory area which includes a variety of different tactile materials.
- Add dress ups during outdoor play.
- Add a permanent craft area in both indoor and outdoor areas.
