

# A Letter Of Memories

This letter from me to you, shows what your child's skills, development and learning too. It's been a pleasure, lots of memories we will treasure.  
Your child will be in our hearts forever!

Dear Natalie and Sean,

It's been a pleasure having Toby in my room this year. During experiences, Toby naturally explores textures, tastes, sounds and smells through hands-on learning, which helps to build cognitive skills. He promotes self-confidence, self-esteem, and also critical thinking skills. Toby enjoys creative play in any activity that includes expressing his creativity and imagination. He engages in open ended play and activities and works cooperatively with his peers. He is a real asset and supports his friends when they are upset and always encourages others to play with him as well. Toby is ready for big school next year and he is very eager to get started, he will do great! Thank you both for your cooperation and support this year! It has been great getting to know - Miss Julia - Dec 2021
