

# MTOP Outcome 4 - Meanings and Examples

## Curiosity

*Children ask questions during a science experiment.*

## Creativity

*Young people choreograph a dance routine.*

## Problem-solving

*A group builds a structure with recycled materials.*

## Persistence

*Children continue coding a game despite errors.*

## Exploration

*Children experiment with different art materials to see how they mix.*

## Innovation

*Young people design a board game with unique rules.*

## Collaboration

*A group works together to solve a STEM challenge, like building a bridge from straws.*
